

HELP US HELP YOU!

**Free CPR Certification
Provided By
Lexington County EMS**

Statistics show that there is a staggering 95 percent mortality rate for the over 300,000 Americans who are victims of sudden cardiac arrest each year. More of these victims would survive if quality CPR and easy access to Automated External Defibrillators were available.

Congress passed a bill designating the first week of June National Cardiopulmonary Resuscitation (CPR) and Automated External Defibrillator (AED) Awareness Week.

The passing of this resolution shines a national spotlight on how important it is for all Americans to learn critical lifesaving skills such as how to perform CPR how to use an AED and the need to increase public access to AEDs.

Lexington County EMS personnel are providing FREE Adult Child and Infant CPR training for the Community. In just 3 hours you can Help Us Help You in an emergency. Changes in CPR make the training fun and easy to learn.

Single session classes are scheduled on:

April 23, 2009
June 25, 2009
August 27, 2009
October 22, 2009
December 16, 2009

From 6:30 PM until 9:30 PM
